

Feedback Report 2019-20

The college takes feedback of all the students during June to July of every year on the presumption that the admitted students can put their valuable assessment after having their practical experience for the year. We conduct a survey through a structured questionnaire put in our website wherein all the students can give their opinion through student's log in with their ID and password. The analysis of the feedback given by the students is done to understand their satisfaction level and also to take necessary action regarding their opinion. The survey hosted in the academic session 2019–20 received response from a total 762 students out of 4447 students. The content of the feedback system includes 25 questions. Participants have to answer all the questions to complete the feedback. In response, participants have to choose an option from 5 given qualitative options, ranging from extremely good to poor performance. This report includes all qualitative responses to each question in the form of percentage bar charts. Each vertical bar on a chart represents the percentage of participants who chose that option among all participants.
